

ValueError

```
classDiagram
    class ValueError
    class OutOfRangeError["core.misc.utm.OutOfRangeError"]
    OutOfRangeError --|> ValueError
```

The diagram illustrates a class hierarchy. At the top is a white box representing the 'ValueError' class, which is divided into three horizontal sections. Below it is a grey box representing the 'core.misc.utm.OutOfRangeError' class, also divided into three horizontal sections. A blue arrow with an open triangular head points from the top section of the 'core.misc.utm.OutOfRangeError' box to the bottom section of the 'ValueError' box, indicating that 'core.misc.utm.OutOfRangeError' inherits from 'ValueError'.

core.misc.utm.OutOfRange
Error
